

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	02/10/2026
Team ID	SWTID-2026-8585
Project Name	IMPORT DATA USING TRANSFORM MAPS (SPREADSHEET)
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👤 2-8 people recommended

Before you collaborate
A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement
What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we [your problem statement]?

Key rules of brainstorming
To run an smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil icon to switch to sketchy icon to start drawing!

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

Person 4

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Project Brainstorm and Idea Prioritization

Focus question: How might we import employee spreadsheet data accurately, update existing employees by Employee ID, and make each import outcome easy to verify?

Idea generation

Idea	Theme	Value
Standardize the spreadsheet headers and verify required values before loading.	Data quality	Catches missing or inconsistent source data early.
Stage spreadsheet rows in the Employee Import table before transforming them.	Safe import	Separates incoming data from the Employee Test target records.
Auto-map matching fields, then confirm any remaining fields with Mapping Assist.	Field mapping	Reduces setup effort while keeping target-field choices explicit.
Coalesce on Employee ID so repeat imports update the matching employee.	Duplicate control	Updates changed details and avoids duplicate employee records.
Review Transform History for inserted, updated, ignored, and failed rows.	Traceability	Shows what happened in each import run and supports follow-up.
Create Department and Location count reports plus an employee list.	Reporting	Makes the imported population easier to check and summarize.
Put the reports on an Employee Analytics dashboard.	Monitoring	Gives HR and administrators one place to view key employee data.

Prioritization

Ranked by expected impact and feasibility for the spreadsheet-import project.

Concept	Impact	Feasibility	Rank
Import Set + Transform Map + Employee ID Coalesce	High	High	1
Check required fields and confirm source-to-target mappings before transform	High	Medium	2
Verify inserted, updated, ignored, and failed rows in Transform History	High	High	2
Add Department and Location reports to the employee dashboard	Medium	High	3

Selected concept: Use an Import Set and Transform Map with explicit field mappings and Employee ID coalesce, then verify the results in Transform History and the employee table.
